Let's get started

Connect to your TV.
Connect to the Internet.
Turn on your TV and set the input to HDMI.
Connect to your TV.
Press the (power) button.
The power indicator blinks blue, and then turns white.

If your TV does not display a picture when the power indicator turns white, restart your system. Press the (power) button for at least 7 seconds to turn off your system, and then turn it on again.

Get the most out of your PS4™ system by connecting to the Internet. You'll be able to play games online and connect with Friends.*1

Make it your own.
You're almost done! Follow the on-screen instructions to set up an Internet connection, set the date and time, and configure other settings - then select [Start Now] from the setup screen.

After you set up your Internet connection, a system software update may automatically download. Future updates will improve performance and add new features.

Will a child be using your PS4™ system? If so, be sure to read the "Parental controls" section.

Connect your DUALSHOCK®4 wireless controller to your system using the USB cable, and then press the (PS) button.

Your controller pairs with your system and turns on.

To later change any settings that you skipped, select (Settings) from the function screen.

Parental controls
If children will be using the PS4™ system, parents or guardians can restrict access to certain content or features using parental controls. For details on what can be restricted and how to set restrictions, refer to the User's Guide.

You can restrict the use of games that have age limitations by setting the parental control level according to the following table.
