Let’s get started

1. Connect to the Internet.
   - Connect the Internet using a LAN cable (sold separately) for a more stable network connection.
   - Do not connect a LAN cable if you prefer a wireless connection (Wi-Fi).

2. Connect to your TV.
   - Make all connections before plugging the AC power cord into an electrical outlet.
   - Connect your DUALSHOCK®4 wireless controller to your system using the USB cable, and then press the (PS) button.
   - Your controller pairs with your system and turns on.

3. Turn on your TV and set the input to HDMI.

4. Turn on your PS4™ system by pressing the (power) button.
   - The power indicator blinks blue, and then turns white.

5. Let’s get started.
   - Quick Start Guide
   - English

6. Make it your own.
   - You’re almost done! Follow the on-screen instructions to set up an Internet connection, set the date and time, and configure other settings – then select [Start Now] from the setup screen.
   - After you set up your Internet connection, a system software update may automatically download. Future updates will improve performance and add new features.
   - If a child will be using your PS4™ system, be sure to read the “Parental controls” section.

Make it your own.

You can transfer saved data from your current PS4™ system to the new PS4™ system. Make sure you try the saved data before you start using the new system. The new PS4™ system can only use the saved data. For details on how to transfer data and what type of data you can transfer, refer to the User’s Guide.

Parental controls

You can restrict the use of games that have age limitations by setting the parental control level according to the following table.

<table>
<thead>
<tr>
<th>Parental control level</th>
<th>Approximate age of user</th>
<th>Game rating labels</th>
</tr>
</thead>
<tbody>
<tr>
<td>2</td>
<td>3</td>
<td></td>
</tr>
<tr>
<td>3</td>
<td>6</td>
<td></td>
</tr>
<tr>
<td>4</td>
<td>10</td>
<td></td>
</tr>
<tr>
<td>5</td>
<td>13</td>
<td></td>
</tr>
<tr>
<td>9</td>
<td>17</td>
<td></td>
</tr>
</tbody>
</table>

You can later change any settings that you skipped by selecting (Settings) from the function screen.
