Let's get started

1. Connect to your TV.
2. Connect to the Internet.
3. Set up your TV and set the input to HDMI.
4. Turn on your PS4™ system by pressing the (power) button.
5. Connect your DUALSHOCK®4 wireless controller to your system using the USB cable, and then press the (PS) button.
6. Your controller pairs with your system and turns on.
7. Turn on your TV and set the input to HDMI.
8. Connect to the Internet.
9. Make it your own.

You're almost done! Follow the on-screen instructions to set up an Internet connection, set the date and time, and configure other settings - then select [Start Now] from the setup screen.

After you set up your Internet connection, a system software update may automatically download. Future updates will improve performance and add new features.

Will a child be using your PS4™ system? If so, be sure to read the “Parental controls” section.

Parental controls

<table>
<thead>
<tr>
<th>Parental control level</th>
<th>Approximate age of user</th>
<th>Game rating labels</th>

<tr>
<td>9</td>
<td>17</td>
<td></td>
</tr>
</tbody>
</table>

Connect your DUALSHOCK®4 wireless controller to your system using the USB cable, and then press the (PS) button.

You can restrict the use of games that have age limitations by setting the parental control level according to the following table.

To later change any settings that you skipped, select (Settings) from the function screen.

Get the most out of your PS4™ system by connecting to the Internet. You'll be able to play games online and connect with Friends.*1

If your TV does not display a picture when the power indicator turns white, restart your system. Press the (power) button for at least 7 seconds to turn off your system, and then turn it on again.

• You'll need to pair a controller when you use it for the first time and when you use your controller on another PS4™ system. If you want to use two or more controllers, you must pair each controller.

• After you've paired your controller, you can disconnect the USB cable and use your controller wirelessly.

• It's possible to use up to four controllers at the same time. When you press the (PS) button, the light bar glows in your assigned color. The first controller to connect is blue, with subsequent controllers glowing red, green, and pink.

• To later change any settings that you skipped, select (Settings) from the function screen.

To the Internet

3-6-1-1-12-1

You can transfer saved data from your current PlayStation®4 system to your new PS4™ system. We recommend that you transfer data before using your new system for the first time. For details on how to transfer data and what type of data you can transfer, refer to the User’s Guide.
